

Academic Year 2025-26

Policy for Slow and Advanced Learners

Orange city Institute of Management, Nagpur Established in 2009, is a leading Management Institute based at Nagpur. The MBA course is duly approved by AICTE and affiliated to RTM Nagpur University and has been awarded B+ rank by National Assessment and Accreditation Council (NAAC)

The Mission of the Institute is to make the management education relevant to the needs of industry, society and globalised economy, and to provide quality education at affordable cost for the upliftment of all students belonging to all categories and status. We achieve this objective in a unique way, where we blend traditional and innovative methods to make learning a joyful process. The course design and pedagogy equip OCIM students to lead complex organizations in a cross-continental environment.

The institute always strives to improve and increase the learning capacity of students by motivating the faculty to adopt innovative teaching-learning pedagogy essentially focusing on a combination of traditional and modern teaching approaches such as use of audio-visual aids like power point presentations, videos, language lab and other such mind mapping tools that not only help maintaining the attention span of students but also help in grasping the concept in a better way. Also classroom teaching is enriched by using flipped classroom strategy for active engagement and participation of pupil as well as enabling the instructor to deal with mixed levels and student difficulties in a better way, introducing real world experiences through industrial visits, summer internship, interaction with experts and scholars etc. that enable students relate better to the topic/course.

In addition to making use of latest innovative teaching-learning tools and techniques, the college recognizes that the learning interest and pace of every pupil is different. Some learners are not-so-gifted and are identified as slow learners while some are gifted learners which are identified as advanced learners and hence special plans/strategies are adopted to deliver learner centric teaching-learning.

Advanced and Slow Learners

Advanced learners are the students who understand a taught topic relatively faster than the other students in the class and attain high scores. They have more potential and talent than the others in

the class. Slow learners on the other hand mostly lag behind in their academic pursuit and find it difficult to understand the subject. The poor performance may not be a sign of the poor capacity or talent but it may be due to inappropriate teaching methods, socio-economic background, lack of motivations and support, unorganized learning practices or even the inability to converse in devised medium

Preamble

The primary goal of creation of this policy is to assess the learning capacity of the students and provide them guidance accordingly. Specific objectives are enlisted as under:

- Identification of the slow learners and advanced learners in the class
- To develop significant strategies and scientific implementations to benefit both the advanced and slow learners
- To boost up the confidence of slow learners and to minimize the barriers and help them out for enhancing their skills in respect of learning processes
- To encourage the advanced learners to be excellent achievers
- To bridge the gap between slow and advanced learners.

Policy for identification of slow and advanced learners

At the entry level, the students must be assessed on the basis of their performance in Learner's Aptitude Test, preceding examination, interest in chosen current subject, involvement in classroom teaching-learning, and learning pace of students.

Slow Learners: -

- Class Test Scores: Less than 50 %
- Lack of motivation and interest
- Lagging behind in dealing with higher order problems
- Low capacity to comprehend core concepts and their applications

Strategies undertaken for tackling slow and advanced learners

Slow Learners:

After the identification of the learners, the departments following policies are adopted: -

A) Remedial Classes: conducted regularly for the identified slow learners, as per the schedule prepared. During these classes, teachers are expected to engage in problem solving exercise,

provide additional study materials and notes, etc. to the students, direct their creative energies towards concept clarification so as to bridge the knowledge gap & enable them to cope with the academic course to which they are enrolled.

The mandates of the remedial classes thus would be: -

- Provision for simplified but standard lecture notes/course material
- Providing handwritten notes for easy understanding.
- Giving additional learning materials like question bank, university question papers etc.
- Revision of topics and practical

B) Organize workshops/seminars/guidance programmes for enhancement of communication skills and art of reading-learning.

C) Guidance through mentor-mentee scheme: Mentoring and connecting with faculty members would set up a healthy relationship between the students and the faculty. Small groups of 10-15 students with a faculty mentor are formed for the resolution of the problems of the students.

D) Conducting activities to enhance their critical and problem solving skills and orienting them for critical thinking.

Advanced Learner

- Advanced assignments or tasks would be assigned to advanced learners.
- Guidance to crack competitive examinations and orient them for better career planning and growth.
- Stimulating the research aptitude by giving them an opportunity to pursue internship/acquire hands on training on projects beyond the curriculum.
- Inspire them to get engaged in certificate/value added courses to nurture their skills on SWAYAM, NPTEL, Coursera etc.
- Motivate them to participate in group discussions, debates, elocution, quiz to develop analytical and problem solving abilities.
- Organize activities to polish their critical thinking abilities.

Improvement Assessment

Each faculty would require to prepare a report after university result declaration of current semester which shows the improvement in performance of slow learners to close the loop.

Following documents would be required to be maintained: -

- Report of result of class test / unit test
- List of slow learners
- List of Advanced Learners
- Report of performance improvement for slow learners
- Attendance record for session conducted for slow learners
- List / Record of tasks given to advanced learners

Anticipated Outcomes

It is expected from the policy framed for the advanced and slow learners that there will be an overall improvement in university results, increase in percentage of students who are able to plan their careers effectively and ultimately contribute towards the betterment of the nation.
